I specifically "pay" for XMRadio satellite services because I am sick and tired of having my information watered down or restricted based on someone else's distorted morals. I am perfectly capable of deciding for myself in regards to what I should or shouldn't listen to. Protect Freedom!

In case people are not aware, there is this great new invention that has been around for a long time, it's called "a dial" which gives you the "freedom of choice" to listen to what you want and don't want. If I hear something I don't agree with or offends me, I change the channel! Protect Freedom!

This is a "FREE" country in case anyone has forgotten and it should not be up to the National Association of Broadcasters to dictate what people are permitted to hear. Are our boys "fighting and dying" in Iraq for this!? Protect Freedom!

I Respectfully urge the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that I demand and pay for. Protect Freedom!

Stop this pandering to people who are too feeble-minded to know how to change a channel! Protect Freedom!

Protect XMRadio!
